

# Mattresses

## Toddler Mattresses

Both these mattresses feature a Ventiflow cover; this is a unique, layered fabric which encourages air circulation to prevent overheating, and which draws moisture away from the body to ensure your toddler gets the most comfortable night's sleep. For more details of spring structures, see below.

### Polzeath (spring count 102)

Open coil, with washable, ventiflow cover. Reversible, hypoallergenic, includes waterproof side.    
70W x 140L x 10D (cm)

**L0078 £115**

### Pelynt (spring count 210)

Pocket sprung, with washable, ventiflow cover. Reversible, hypoallergenic, includes waterproof side.    
70W x 140L x 10D (cm)

**L0079 £155**

## Standard Single Mattresses

The level of comfort offered depends on the type and number of springs: the linked structure of open coil springs offers basic comfort, but pocketed springs are able to offer an independent, more supportive reaction to your child's weight – and in both cases, the higher the number of springs, the greater the level of comfort. Latex, however, offers the highest level of support and is brilliant if your child has allergies.

### Sennen
